

Greenville Beautification Committee members are **seeking current photographs of Greenville** for consideration for inclusion in the publication of a fund raising calendar for 2009. The committee would like community involvement in the calendar's preparation in two ways.

First, individuals may submit up to three 4" X 6" colored snapshots of Greenville in an envelope that includes the photographer's contact information.

The **focus** of the calendar will be **on the community landscape but could include people in a community activity**. The photos can be left at Heart's Desire Bakery or brought to the Chamberlin Library prior to Town Election Day, Tuesday, March 11th, where the photos will be displayed.

The second aspect of community involvement in the project is for citizens to vote on a **"People's Choice Award"** at the Election or at Town Meeting, Saturday, March 15th.

This is a second request for photos, following a similar request for entries back in October when Martha Verville's photo of the Mill Pond received the most votes for inclusion in the calendar. **There will be two additional opportunities for public participation, late spring and mid-summer.**
