**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT  
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Selectmen  
Town of Greenville, New Hampshire

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Greenville, New Hampshire, as of and for the year ended December 31, 2010, which collectively comprise the Town of Greenville, New Hampshire's basic financial statements and have issued our report thereon dated November 23, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

*Internal Control Over Financial Reporting*

In planning and performing our audit, we considered the Town's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Town's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

*Compliance and Other Matters*

As part of obtaining reasonable assurance about whether the Town of Greenville, New Hampshire's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Selectmen, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Vachon Cloutay & Company PC

November 23, 2011

## **BOARD OF SELECTMEN**

In a year that has seen challenges in the economy to our citizens and the Town, the Board of Selectmen continuously held cost control in high priority while still addressing all matters presented to the Board. Through it all we would like to thank the Town Departments and staff that assisted us in achieving many successful initiatives this year.

The High Street Project has been a priority as to coordinate the project needs along with securing funding sources with as little impact to the Town as possible. Due to the efforts and dedication of Town Administrator Kelley Collins we were able to receive a CDBG grant with the intention of commencing in the spring of 2012. The entire project was \$1,438,127. The FEMA grant provides 75% or \$1,078,595, the State of NH has provided ½ of the 25% match required or 12.5% at \$179,765 and an additional 12.5% match from the Community Development Finance Authority (CDFA) in the form of a Community Development Block Grant (CDBG) for \$208,766 which includes the matching \$179,766 as well as \$29,000 for Southwest Regional Planning Commission (SWRPC) to administer the CDBG.

Continued litigation seemingly and unfortunately consumes the Board's time and focus as we encourage business and growth but also need to assure the environment and our infrastructures are protected for current fiscal attention as well as for our future generations.

The Richardson Road Project was achieved thanks to the Highway Department Staff through their endless hours as well as working through the night. Their efforts, not only produced a long lasting solution but at a cost savings as well.

The refurbishing of the Adams Hill water tank started at the end of September. The interior repairs were completed in December which allowed the tank to be put into service. The exterior repairs needed will be started in the spring and should be done over a couple of months. The Adams Hill tank allows a needed redundant water supply to our system. In a fact finding endeavor it was also found that the Barrett Hill Tank will also require preventive maintenance. This will only serve to reduce costs in the future and not allow deterioration as the Adams Hill Tank was allowed over the years as to result in a more expensive project then needed.

The endless efforts of the volunteer Boards such as The Planning Board and Zoning Board are valued to assist with the Towns growth and requirements.

The Beautification and Holiday Committee do an awesome job in keeping our Town beautiful and filled with Holiday events that are appreciated by many!

The Parks and Rec held many fun theme events. Pool Managers were added to support the activities and which led to the many positive comments from residents and appreciative children. Thank you to Janece Shultz and Chelsea Lund for your efforts and creative ideas along with the caring lifeguards to make the Program a great success this year!

The Library is also an appreciated resource as the staff held many educational and fun programs throughout the year!

The dedication and volunteerism of the Fire Department personnel, led by Chief Jim Stimans for their dedication in training numerous hours and availability for any emergency is a great credit and asset of our Town. Emergency Management is led by our new Director Tim Johnson and his support staff. We relied upon them greatly during Hurricane Irene and appreciated their hard work and dedication.

This year we closed out the first phase of the Wastewater Facility Upgrade with the design and construction of a new clarifier. The final review and acceptance by the State was completed in October. Engineers from Woodard and Curran have been working on the facility design study and the local limits which will be completed early this year.

We would like to thank Woodard and Curran and their staff for over Ten (10) years of dedicated service to the Town and its residents. We would also like to welcome Utility Partners as they were recently awarded a five (5) year contract for operation and maintenance of the Town's Water and Wastewater Treatment facilities.

The Board of Selectman implemented citizen requests for minutes and agendas posted to the Town's Web Site as well as to establish meeting times at hours more available to our residents. We would like to encourage anyone to attend the Board of Selectmen's meetings to be better informed about all the challenges and topics that affect us all in Greenville!

Respectfully Submitted,  
Board of Selectmen

## **STATUS REPORT ON HIGH STREET LANDSLIDE**

**On March 31, 2010 the Town of Greenville experienced a significant landslide on a steep slope on the north side of the Otis Falls Hydro impoundment on the Souhegan River. The landslide precipitated the closure of High Street in Greenville which is a major route between Greenville and New Ipswich.**

**In May 2010, after consultations with NH Department of Transportation, NH Department of Environmental Services, NH Shoreland Protection, Nature Resources Conservation Services, the U.S. Army Corps of Engineers, NH Homeland Security and FEMA, the Town hired Headwaters Hydrology, LLC to provide engineering services to determine the best and most cost effective solution to stabilize the slope on High Street. We received a proposal outlining several choices in September 2010. After careful review and refinement the Town selected a proposal and submitted a request to FEMA for \$1,438,127. FEMA's grant will provide 75% of the request or \$1,078,595.25.**

**In the meantime, the Town has been working to secure the 25% matching funds (\$359,531.75) required for the FEMA grant. Senator Peter Bragdon was instrumental in assisting the Town by making sure that 12 ½ % of the matching funds made it through the very tough State budgeting process in the Summer of 2011.**

**In August, Southwest Regional Planning Commission's, Rebeckah Bullock, submitted a Community Development Block Grant (CDBG) application to the Community Development Finance Authority on the Town's behalf. On Wednesday September 22, 2011 the Community Development Finance Authority's (CDFA) Advisory Committee met and awarded the Town a \$208,776 CDBG which includes \$179,756 in matching funds for the Town and \$29,000 in grant administration fees for SWRPC. This approval granted by the NH**

**CDFA's Advisory Committee went through the formal process of being authorized through a Grant Agreement between the State of New Hampshire and Town of Greenville at a meeting of the Governor and Executive Council in October 2011. The Town appreciates the assistance from Ms. Bullock and the SWRPC, as well as the vote of confidence from the Community Development Finance Authority.**

**The next step will be to put the engineering services out for a Request for Qualifications (RFQ). We anticipate that happening early in 2012. The Town will then choose an engineering firm who will write bid documents. The project may require additional borings at the toe of the slope so they have the most accurate information with which to write the bid documents. Then the project will be put out to bid and a successful bidder identified, hopefully, in time for the 2012 construction season.**

**Once again, we thank all the residents of High Street for their patience and support during this difficult time. We understand that the closure of High Street constitutes a major inconvenience for the neighborhood and the Town.**

**Kelley Collins,  
Town Administrator**

Water meter project	\$	<u>6,856.60</u>
---------------------	----	-----------------

	\$	109,465.16
--	----	------------

## TOWN CLERK

Motor Vehicles	\$223807.31
Dog Licenses	1337.25
Marriages Licenses	515.00
Certified Copies	2060.00
Municipal Agent	8250.00
UCC, Dog Fines	230.00
Remitted to Treasurer	\$236199.56

The revenues remained close to the same amount as 2010. At least did not go down. The State Legislature removed the \$30.00 added fee for the registrations of motor vehicles. The state is now working on a bill requiring ID for voting. They will be doing a trial run at the Presidential election in November.

Remember you can register your renewals online at [www.greenvillenh.org](http://www.greenvillenh.org) and click on Registration/Dog Renewal. In February we will establish the ability to use debit and credit cards. We are often asked if we take debit and credit cards, so it is time we update our method of payment. Don't forget driver licenses can be renewed online. The sub-station in Milford is opened only Wednesdays and Thursdays from 8:00 am to 4:00 pm.

Thank you to Deb Reardon and Bernadette Desmarais. They both do an exemplary job. To residents of Greenville, thanks for your patience and support.

Respectfully submitted,  
Kathleen Valliere, Town Clerk

## **BUILDING INSPECTOR/ CODE ENFORCEMENT**

**This year I am writing this as your building inspector due to the retirement of Don Baldinelli. I would like to thank the Board of Selectmen for their decision to hire me for this position.**

**This year was about the same as last year in regards to building activity. Small projects seem to be the majority of permits issued. We had a few mobile home replacements and 1 new home built this year.**

**Hopefully next year will be more prosperous for everyone and activity may return to past levels.**

**Respectfully Submitted,  
Jim Shultz, Building Inspector**

## **HIGHWAY DEPARTMENT**

**The year of 2011 has been very interesting for me. This was my first year in Greenville, and I found it to be a rewarding one. The town's people were very understanding and helpful. It was greatly appreciated.**

**This past year we completed the bridge on Richardson Road. I would like to thank Tom Saari and his sons for their professional workmanship on this project. Also the effort made by Mike Lamarre and his men in setting the boxes with us.**

**We also conducted our usual maintenance of brush cutting, ditching, culvert cleaning, and mowing.**

**I would like to thank Mike Bergeron and Gregg Eastman for their efforts this year. Also a big thank you to Kenneth McCuddy for his help and dedication during a trying winter.**

**I would like to thank the Board of Selectmen for their support, help, and guidance during my first year.**

**Last but not least a big thank you to the front office, Kelley Collins and Elisa FitzGerald for all their help.**

**Respectfully submitted,  
Thomas Plourde,  
Road Agent**

## **TEMPLE-GREENVILLE POLICE DEPARTMENT**

I have compared the statistics for 2011 to those for the past 20 years. The result is that we have a lower incidence of crime now than we did in 1991. The police merger has allowed us to pool our resources and do a better job. Not only does the merger save both towns a substantial amount of money, it has greatly improved our ability to hire well-qualified officers. I am proud to say that while neighboring towns are struggling with increased burglaries, ours have gone down. The fact is that the majority of burglaries are drug related. Sgt. D'Auria has a great working relationship with the DEA, NH State Police and the Attorney General's Drug Task Force. His ongoing investigations with these agencies make a tremendous difference. Officer Sprankle is our lead burglary investigator, as well as serving as the department prosecutor. His knowledge and experience in burglary investigation is unmatched. Their combined efforts have lead to many successful arrests and prosecutions. Officers Needham and Rousseau are our newer officers. They have done a tremendous job, beyond my expectation. Both of these officers are gaining experience in the proper handling of incidents and investigations, along with prosecution of cases. Our part-time officers, Officer Maxwell, Officer Valente and Officer Lamarre are an invaluable part of our team. They are always there when we need them. Elizabeth Maxcy-Humphrey has been our department administrator for over 17 years. She keeps the department administration running smoothly and efficiently. Thank you!

In the fall of 2011, we lost a dear friend, officer and co-worker. Peter Clegg had been employed by the Town of Temple since 1987 as a police officer and animal control officer. He also served as the animal control officer for the Town of Greenville. Pete was instrumental in the development of the police and animal control departments. He is greatly missed by the department. I commend him for his service to the town and his friendship.

**Respectfully Submitted,  
James H. McTague,  
Chief of Police**

## WELFARE DEPARTMENT

According to State Statute (RSA 165:1) *"Whenever a person in any town is poor and unable to support himself, he shall be relieved and maintained by the overseers of public welfare of such town, whether or not he has a residence there."* Living up to this mandate continues to be a challenge during these trying economic times.

Statistically, we had 48 appointments for welfare in 2011, which is down 30% from the 69 appointments for assistance in 2010. Of the 48 appointments, 21 were new clients in 2011, 10 applicants were denied assistance. Seven clients asked for assistance more than once in 2011. The Town paid rent , or part of a month's rent, 28 times. We provided food vouchers to 4 families. We assisted 12 families with their electric bill. We also provided some limited fuel assistance.

It should be noted that State Statute (RSA 165:28) requires that if assistance is rendered to a person who owns real estate, a lien shall be placed on that real estate and RSA 165:19 requires that *"The relation of any poor person in the line of father, mother, stepfather, stepmother, son, daughter, husband or wife shall assist or maintain such person when in need of relief."* RSA 165:4-a also allows the Town to apply any welfare assistance, that is approved for an applicant, to be paid to the Town Tax Collector if the landlord has past due property taxes , water or sewer bills to the Town.

I am happy to report that by referring applicants and clients to other sources of assistance, when qualified, we finished up the year with 45% of our budget left. I am cautiously optimistic that we will be able to continue to *"...relieve and maintain the poor..."* while being fiscally responsible to the taxpayers of the community.

I appreciate the opportunity to serve the community as Welfare Director and I will continue to do what I can to balance the need for assistance with the prudent management of the budget. Thank you for your continued support.

Kelley Collins,  
Welfare Director

## **FIRE DEPARTMENT**

**In 2011 the Fire Department mission was to continue to improve. The fire officers and members worked together on areas like training, equipment maintenance, and station maintenance to name a few.**

**We also had a successful membership recruitment campaign. We had approximately 15 interested individuals apply to become members of our volunteer department. As of the writing of this we have successfully added 7 new members. We will continue to work to improve and will spend the remainder of this year working with the new members.**

**Respectfully submitted,  
James Stimans,  
Fire Chief**

## **FIRE STATION COMMITTEE**

**The Fire Station Committee has continued to meet on a regular basis despite the fact that two of our committee members did not get re-appointed until late June.**

**In July, the Board of Selectmen authorized the Town Attorney to begin negotiations with the holder of the well easement for the future fire station parcel on Old Mason Center Rd. In August, the Lamarre family notified the Board of Selectmen that they would work with the easement holder to remove the easement from the deeds so that the Lamarre family could present a clean deed to the town. In November, the Town Attorney received the revised deed releasing the easement from the property. As of this date, to our knowledge, the Board of Selectmen has not accepted the property which would be free and clear of the easement.**

**Respectfully submitted,  
Charles Buttrick, Chair  
Tom Barrett  
Deb Bouley  
Jim Stimans  
Mark Winslow**

## **FOREST FIRE WARDEN and STATE FOREST RANGER**

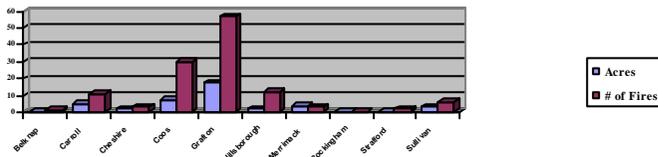

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands, work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. Under State law (RSA 227-L:17) a fire permit is required for all outside burning, unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 603-271-1370 or [www.des.state.nh.us](http://www.des.state.nh.us) for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at [www.nhdfi.org](http://www.nhdfi.org).

Both in terms of the number of fires, as well as the number of acres burned, this past fire season was the smallest since records have been kept. Extensive rainfall virtually all season long kept the fire danger down. When fires did start they were kept very small. The largest fire for the season was only 5.4 acres which occurred in Littleton on May 2<sup>nd</sup> 2011. There was however a small window of high fire danger in the northern third of the state during July when little rainfall was recorded. During this time there were a number of lightning started fires which are fairly unusual in New Hampshire. As has been the case over the last few years, state budget constraints have limited the staffing of our statewide system of 16 fire lookout towers to Class III or higher fire danger days. Despite the reduction in the number of days staffed, our fire lookouts are credited with keeping most fires small and saving several structures due to their quick and accurate spotting capabilities. The towers fire spotting was supplemented by contracted aircraft and the NH Civil Air Patrol when the fire danger was especially high. Many homes in New Hampshire are located in the wildland urban interface, which is the area where homes and flammable wildland fuels intermix. Several of the fires during the 2011 season threatened structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to

their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at [www.firewise.org](http://www.firewise.org) Please help Smokey Bear, your local fire department, and the state's Forest Rangers by being fire wise and fire safe!

**ONLY YOU CAN PREVENT WILDLAND FIRE**

## **EMERGENCY MANAGEMENT**

The office of Emergency Management's mission is to identify, evaluate, plan, and prepare for emergencies that could occur in Greenville, NH. This is accomplished by teaming actively with various departments and organizations in supporting an effective response, mitigating further hazards, and assisting in recovery. This further includes education and informing community of issues and actions to be taken on their behalf as well as actions to be taken by the public for their own protection and survival in emergencies.

Since being appointed the director in the spring of this year, the Town of Greenville has seen hurricane Irene and a town wide power outage. During these events the towns emergency operation center was operational. Due to the hard work of all those involved the town was able to continue to operate with little interruption.

During the upcoming year, the office of Emergency Management will be working to update the town's Emergency Operation Plan. We also plan to start training town personnel that need it, the Incident Command System.

The department is always looking for volunteers. If you are interested in learning more about the office of Emergency Management, please contact the office.

I would like to thank the Board of Selectmen, Greenville Fire, Police, Department of Public Works, and Kelley Collins for their assistance during 2011.

I would also like to take a moment to thank Marcel "Spike" Bernier, for the more the 30 years of service that he has given to the Town of Greenville. Marcel served most recently as Emergency Management Director. He held this position for the past five years, before retiring.

Respectfully submitted,  
Timothy Johnson II, Director  
Cassie Johnson, Administrative Assistant

## **RECREATION & PARKS COMMITTEE**

The Recreation & Parks Committee had another successful year. While continuing to maintain and improve our facilities, we were able to operate under budget for the fifth consecutive year. Our biggest change was adding a full time pool manager position that was split between two people. This resulted in better planning and organization. The pool was open for 57 days, with attendance slightly under 2010, which was a record year.

The swim lessons were once again well attended, being directed by our Assistant Manager. We were also very happy with our lifeguard crew. Despite having only one returning guard, our new guards were great. We were fortunate to hire one very experienced guard, along with new, enthusiastic ones. We hope they all return for our 2012 season.

Our swim team was the largest ever, with 22 participants. This resulted in our competing in Division II for the first time, but we still managed to place fifth at the large Milford Rotary meet. We continue to be proud of their efforts and are pleased they did so well again this year.

We expanded our "special" pool days to three - Water Wars, Hawaii and Carnival Day. Each event was free and well attended, resulting in a fun day for the participants, and we plan on continuing them next year. We also organized two other free events: Walk New Hampshire and the Octoberfest. Walk New Hampshire was by far the best attended yet!

**Additional repairs are needed for the coming year. We need to ensure that our tennis and basketball courts do not further deteriorate, our bathhouse is kept in good condition and our pool is maintained to the point it does not have to be replaced at considerable expense.**

**We would like to recognize the Fire Department and particularly our Highway Department for their assistance. Their willingness to help us saves the town considerable expense. Thank you both! Last, we welcome your help and suggestions. For a town our size, we are fortunate to have the facilities we do and we need your help to maintain them, so they continue to be of use in the future. Thank you!**

**Respectfully submitted,  
Annette Gallagher  
Tom Higgins  
Rick Miller  
Lauren Nelson  
Carol Russell**

## **CONSERVATION**

**The annual roadside clean-up was held in late April this year. We thank the volunteers who assisted in the clean-up. The commission again this year received a donation of bulbs for sponsoring a roadside clean-up.**

**For an Eagle Scout project, Xavier Guay built a kiosk and benches for the Potter Woods Conservation Land. He also worked on trail development there.**

**The Conservation Commission did not have any wetlands permits to act on this year.**

**Marshall A. Buttrick, Chairman**

## **BEAUTIFICATION COMMITTEE**

**The Beautification Committee is a group of volunteer residents who are committed to improving Greenville by the planting of annual and perennial flowers and other related improvement projects.**

**In 2011 the members focused on the maintenance of the many established perennial gardens located throughout the town. Some of the projects included the spring cleanup of the garden beds, the planting of colorful annual flowers, the watering and deadheading of the plants during the summer months and finally the fall cleanup of the gardens. It is our hope that Mascenic High School seniors, in need of community service hours toward graduation, will be an added help to the 2012 spring and fall cleanup projects.**

**Again this year we were the recipient of plant and cash donations from twenty or more Greenville citizens who recognize there is a need for continued support of the voluntary Beautification project. In addition we received another 400 daffodil bulbs thanks to the Conservation Committee. The bulbs were planted in the fall along Main Street and under the town welcome signs on Route 45 and River Road.**

**A magnolia tree was planted near the veterans' memorial at the intersection of River Road and Main Street in memory of David Dow, a Greenville native and veteran who was a Greenville selectman at the time of his death; the planting was made possible by a memorial donation from family and friends.**

**Additional projects we hope to address in 2012 include the replacement of the window boxes on the bridge, mulching of all flower beds and the repair on the welcome sign on Route 31 South which has begun to seriously degrade and delaminate.**

**Again this next year, we are seeking new members to help keep the committee going. For the past two years the work has been done by a handful of the original members and, like all volunteer committees, we need new members to help us thrive, grow and prosper. Please consider joining us this spring.**

**Meetings should resume in April - the date, time and location will be posted in the paper and at town hall. Please contact Deb Spratt (878-0657) for additional information.**

**Respectfully submitted,  
Deb Spratt on behalf of the Committee**

## **ZONING BOARD OF ADJUSTMENT**

**Every zoning ordinance adopted by a local legislative body shall include provisions for the establishment of a zoning board of adjustment (RSA 673:1, IV).**

**The ZBA hears and decides any appeal or decision, order or interpretation by the officer whose duty it is to enforce the zoning ordinance. While property rights must be both respected and protected from unreasonable zoning restrictions, the ZBA is established to ensure that the objectives of zoning ordinance are fully and equitably achieved, and that the public health, safety and welfare are protected.**

**During 2011, the Zoning Board of Adjustment met three times and received two applications, one for a special exception and the other a request for a certificate of approval of the location of a junk yard. Both applications were granted.**

**This year, we have five full members: David Orgaz, Chairman; Mike Washburn; Jim Stimans; Annette Gallagher; Elisa FitzGerald, Secretary, and one alternate: Debbie Reardon. In 2012, the Board will begin to meet at least quarterly for a work session. If you have any questions, concerns, or suggestions for the Zoning Board of Adjustment, please contact the Selectmen's Office at 603-878-2084.**

**We are pleased to serve as members of the Zoning Board of Adjustment.**

## **CHAMBERLIN FREE PUBLIC LIBRARY REPORT OF THE BOARD OF TRUSTEES**

2011 was a very busy year for the library. We circulated 16,190 items to 16,987 patrons. One hundred eighteen library cards were issued this year. We processed a record number of Inter-library loans - nearly 2,000. We added 1,441 new items to our collection, broken down as follows:

Adult Fiction	504	Adult Nonfiction	153
Young Adult Fiction	36	Juvenile Fiction	202
Children's Books	149	Juvenile Nonfiction	132
Audio Books	77	DVDs	188

Our outreach efforts continued to offer the community a wide variety of programs for all ages. Chamberlin Free Public Library presented a total of 140 programs serving nearly 1400 adults and children.

Our weekly Story and Craft hour has been a staple for young children and homeschoolers and has provided literacy education, creativity opportunities and entertainment to over 250 children and parents.

Knit for a Cause continued to provide hand-made items to numerous charitable organizations and the group was highlighted in a front page article in the Monadnock Ledger Transcript. This year, the group knitted 530 items for these organizations.

Our AARP-staffed income tax preparation assistance program continued to offer elderly and low-income taxpayers free help in filing income tax forms. Seventy-eight Greenville residents

were served by this program, an increase of more than 100% over last year.

Our summer reading program was attended by 120 children and was highlighted by an appearance by Henry the Juggler.

Our free movie presentations of the latest releases attracted 138 adults and children.

The annual Greenville Tree Lighting was hosted at Chamberlin Library and was attended by 130 adults and children.

The library received three grants this year. The NH Council for the Humanities funded two programs in the Humanities to Go series and an additional grant funded our summer reading program performer.

The Columbian Manufacturing Company Ledgers Restoration project, funded by a NH Moose Plate Conservation grant, was completed this year. These irreplaceable documents have been conserved and digitized and copies have been distributed to many libraries and historical societies.

## HOME HEALTH CARE, HOSPICE & COMMUNITY SERVICES

In 2011, Home Healthcare, Hospice and Community Services (HCS) continued to provide home care and community services to residents of Greenville. The following information represents HCS's activities in your community during the past twelve months.

### Service Report

Services Offered	Services Provided
Nursing.....	446 visits
Physical Therapy.....	172 visits
Speech Therapy.....	5 visits
Occupational Therapy.....	18 visits
Medical Social Work.....	47 visits
Chronic Care.....	465 hours
Health Promotion Clinics.....	12 clinics

Total Unduplicated Residents Served: 51

Hospice care and material and child health services are also available to residents. Town funding partially supports these services.

### Financial Report

The actual cost of all services provided in 2011 with all funding sources is \$153,199.00

These services have been supported to the greatest extent possible by Medicare, Medicaid, other insurances, grants, and patient fees. Services not covered by any funding source were partially supported by the town's appropriation.

For 2012, we request an appropriation of \$7,500.00 to continue to be available for home care services in Greenville.

For information about services, residents may call (603) 532-8353 or 1-800-541-4145, or visit

[www.HCSservices.org](http://www.HCSservices.org)

Thank you for your support of home care services.

## **SOUHEGAN VALLEY AMBULANCE SERVICE**

The Souhegan Valley Ambulance Service Inc. (SVAS) is a non-profit emergency medical transport service which was organized on Sept. 1, 1972. We serve the towns of New Ipswich and Greenville. SVAS responded to approximately 460 calls during 2010 and also provided a standby ambulance for many community events. We have a very dedicated membership that spends countless hours ensuring the highest quality of care for our community. These hours not only include responses to emergency calls but also the many hours of training required to maintain medical licenses, maintain equipment, and complete the required day-to-day administrative tasks.

In 2011, we handled 543 patient requests, 337 in the Town of New Ipswich and 207 in Greenville. While all transported patients are billed for services, many of our communities' residents have suffered in the economic downturn. The loss of jobs has resulted in the loss of insurance or savings to cover medical treatments. Unfortunately, this translates to an increase in hardship requests for the ambulance to write off costs incurred when we provide service. These losses become the burden of the community at large. The towns of Greenville and New Ipswich have partnered with Souhegan over the years by contributing to our operating budget. As our costs increase and local residents are less able to pay their individual charges, the burden is spread through the tax base by increasing our funding requests to the towns. We are deeply indebted to our communities for continuing their support.

Economic considerations have affected our staffing levels as well. During the past year we have lost Emergency Medical Technicians to higher paying jobs with regular hours. Like so many organizations we struggle to do more with less. We are always looking for more qualified personnel so if you have ever considered serving your community in this capacity, now would be a good time to take the necessary steps to earn your license.

The Board of Directors would like to extend its thanks to the community for its support of the ambulance service. We would also like to express our sincere appreciation to the members of SVAS and their families (who put up with the countless hours and interrupted lives). Thank you for your time and dedication.

Respectfully,  
The Board of Directors,  
Souhegan Valley Ambulance Service Inc.

# SOUHEGAN VALLEY AMBULANCE SERVICE

## BUDGET

# **WASTEWATER TREATMENT FACILITY**

**In 2011, Woodard & Curran provided complete Operations and Maintenance of the Wastewater Treatment Facility, two pump stations, and the collection system. NO CHANGE ORDERS WERE SUBMITTED!**

## **STAFFING**

**The Wastewater Treatment Facility, collection system, pump stations and Industrial Pretreatment Program (IPP) are maintained and operated by the following staff.**

<b>Project Manager—FT</b>	<b>Daily process control oversight &amp; admin</b>
<b>Chief Operator—FT</b>	<b>Process control, labs &amp; maintenance</b>
<b>Operator—PT</b>	<b>Maintenance, labs, as required</b>

**Note: Additional personnel were utilized when needed and were supplied by Woodard & Curran at no additional cost to the Town.**

## **OPERATION & MAINTENANCE**

**At no additional cost to the Town Woodard & Curran provides an extensive support network that allows for expert assistance to address facility problems that may extend past the normal operator level of experience and qualifications. We have an Operations and Maintenance team that provides a licensed electrician, HVAC specialist, micro examination and process trouble shooting expertise. The cost for these qualified individuals is covered under the annual operating budget. The facilities have utilized these Woodard & Curran assets as needed throughout the year to minimize additional subcontractor charges to the Town. They have been proactive in equipment repairs, both routine and capital, as well as implementing new procedures allowing for optimized treatment process. Training was conducted for all departments**

The following items highlight the year's activities beyond routine.

## **ADMINISTRATIVE**

In February, after a storm, it was discovered that a portion of the drying bed roof had collapsed. This building was built in 1974 with the original plant and constructed of fiberglass panels with an aluminum frame. Over the years the fiberglass panels slowly deteriorated from ultraviolet rays and the weather resulting in a structural failure. We assisted the Town and worked with the insurance company to ensure that an alternative roof could be put in place at no additional cost to the Town, yet still allow the building to function as it was originally intended. Work started on that project in early December and is expected to be completed by the spring of 2012.

## **DISCHARGE PERMIT COMPLIANCE:**

We continued piloting with different chemicals in trying to "organically" meet the new NDPES as mandated by the EPA & NHDES. Our goal is to keep the costs for the facility to meet compliance as low as possible, but a major upgrade to the plant may end up being the only alternative. The costs for the added chemicals were carried in the March 2011 warrant article.

Throughout 2011 work was completed for a WWTF Upgrade Facilities Plan, Annual Copper Optimization Report, Total Recoverable Aluminum Investigation and Source Control Plan, Standard Operation Plan for Chemical Phosphorous Removal, Mass Balance of Phosphorous and a Local Limits Study for the Wastewater Treatment Plant. These results are expected to be complete in the spring of 2012. Local limits are established through extensive testing at key points in the system to determine what contaminants are being discharged and where the bulk of the

contaminants come from. Once determined, the EPA enforces new discharge permit limits and calculates what the treatment plant can effectively manage based on concentrations and flow, without causing violations of the new permit. Once these local limits are established the BOS will amend the Sewer Use Ordinance accordingly to include enforced actions by Town officials.

All quarterly and annual reports were submitted as required by the Administrative Order put forth by the Environmental Protection Agency.

## **REPAIR & MAINTENANCE**

### **Clarifier Capital Project**

In October of this year the final inspection and acceptance was completed on the new clarifier project. As this project was 50% funded through the "Stimulus" or ARRA program Federal and State officials were required to perform intensive inspections and audits of records, construction materials and financials. The total cost for this project was approximately \$865,000

### **Anoxic Zone Mixer Capital Project**

The original anoxic zone mixer failed due to fatigue. This mixer was original from 2000 and has operated 24/7/365 since that time. Total replacement cost approximately \$10,000 with installation.

## **COLLECTION SYSTEM**

Bi-annual cleanings of the pump station wet wells were performed to extend the operating life of the mechanical equipment. General grit, settled solids and foreign debris was removed at both locations.

Routine enforcement and inspections were performed throughout the year as a part of the Fat Oils and Grease (FOG) program. This program significantly reduces the

amount of FOG that enters the collection system which affects the treatment process at the WWTF.

**WASTEWATER FLOW**

Month	2011 Gallons	2010 Gallons	Difference +/-
January	3,083,100	3,957,300	-874,200

# **WATER TREATMENT FACILITY**

**In 2011, Woodard & Curran provided complete Operations and Maintenance of the Water Treatment Facility, two storage tanks, distribution system as well as meter reading and repairs. The Water Treatment Facility has continued routine and extended testing for over 95 possible contaminants with no regulatory violations reported for the year. NO CHANGE ORDERS WERE SUBMITTED!**

## **STAFFING**

**The Water Treatment Facility, distribution system, meter reading and meter repairs are maintained and operated by the following staff.**

**Project Manager—FT      Labs, sampling, process control & admin  
Operator—PT              Maintenance, labs & as required**

**Note: Additional personnel are utilized when needed and are supplied by Woodard & Curran at no additional cost to the Town.**

## **OPERATION & MAINTENANCE**

**At no additional cost to the Town Woodard & Curran provides an extensive support network that allows for expert assistance to address facility problems that may extend past the normal operator level of experience and qualifications. We have an Operations and Maintenance team that provides a licensed electrician, HVAC specialist, micro examination and process troubleshooting expertise. The cost for these qualified individuals is covered under the annual operating budget. The facilities have utilized these Woodard & Curran assets extensively through the year to minimize additional subcontractor charges to the Town. They have been proactive in equipment repairs, both routine and capital, as well as implementing new procedures allowing for optimized treatment process. Training was conducted for all department personnel including topics on facility operations, regulatory reporting, administrative functions and safety.**

The following items highlight the year's activities beyond routine.

On April 8<sup>th</sup> we had Blue Earth labs on site for the filter rehabilitation and cleaning process. This was done to increase the overall filter performance and enhanced water production capabilities. The company was on site for a total of four days and with the assistance of the facility staff, acid washed and soaked each filter over night, removed the old degraded anthracite and replenished the filters with a twenty-two inch layer of new anthracite. The project went well and greatly reduced filter run times and the new anthracite helped to reduce taste odor and color. Since project completion we have averaged less than .03 NTUs for turbidity and 0 color on the filter effluent at the plant.

June 6<sup>th</sup> New England Field Services started the lagoon cleaning process and were on site for four days. They removed 450 tons of material, some from lagoon one and the bulk from the number two lagoon and transported it to a land fill in northern New Hampshire. This cleaning should cover the facility for years to come with an estimated life of five to eight years. Currently we are running off of the number one lagoon and allowing the other one to remain empty and off line until it is needed. This was an item of issue with the Department of Environmental Services since Woodard & Curran took over in 2001. Their concern was that due to the excessive sludge build up that the lagoons could breach and the accumulated solids could contaminate the surrounding area or the reservoir. Through enhanced treatment and annual liquid solids removal we were able extend the life of the lagoons over the past ten years, which allowed the Town to secure the funding for the project through water revenues.

## **DISTRIBUTION MAINTENANCE**

The BOS voted in favor of the rehabilitation of the Adams Hill water tank in the fall of this year. Due to the very mild weather the project was started in September and they

had completed the work that was needed for the interior of the tank in November. On December 1<sup>st</sup>, we were able to put the tank back on line. It is anticipated that in the spring the tank will be drained to complete the exterior portion of the project.

In August of the year it was determined that the 600,000 gallon water tank known as Barrett Hill tank was in need of exterior painting. That tank was built in 2000 and if it had been properly clear coated the surface would have lasted an estimated 20 years. Without that extra protection the coating prematurely failed. The costs for painting will be at or near \$60,000 and the BOS has planned to have the work completed after the Adams Hill work is completed.

Hydrant flushing was conducted in September of this year, along with annual maintenance (i.e. winterization).

## NOTICE

If you own real estate lots that were involuntarily merged by municipal action, you may be able to have those lots restored to their pre-merger status.

Your property may qualify if two lots were merged for zoning, assessing, or taxation purposes and the merger occurred:

- During your ownership, without your consent; or
- Prior to your ownership, if no previous owner consented to the merger.

To restore your property to pre-merger status, you must:

- Make a request to the local governing body
- No later than December 31, 2016.

Once restored:

- Your properties will once again become separate lots; however, they must still conform to applicable land use ordinance. Restoration does not cure non-conformity.

This notice must be:

- Posted continuously in a public place from January 1, 2012 until December 31, 2016, and
- Published in the 2011 through 2015 Annual Report.

Read the full statute at RSA 674:39-aa [Restoration of Involuntarily Merged Lots.](#)
