

**BUILDING DEPARTMENT
BUILDING INSPECTOR / CODE ENFORCEMENT OFFICER**

In reviewing 2016, construction activity within the town increased from that of 2015. This year was fairly active, with a combination of residential and some commercial building construction activity, coinciding with the overall steady increase in the construction industry throughout the state and nation. We even saw an increase in photovoltaic systems being installed from previous years.

There were only a handful of new homes built this year, with most of those being new manufactured homes and the vast majority of the building permits that were issued were for additions to properties and renovations of buildings.

Once again, I would very much like to thank everyone at Town Hall for all of their help and assistance with the day to day operations.

Type	Quantity	Revenue
General Building Permits	15	\$604.60
New Home Construction	5	\$1,055.70
Commercial Construction	2	\$5,551.00
Mechanical Permits	6	\$355.00
Electrical Permits	15	\$905.00
Solar Permits	4	\$449.77
Plumbing Permits	10	\$805.36
Demolition Permits	2	\$75.00
GRAND TOTAL:		\$9,801.43

Respectfully submitted,

Scott P Tenney

Building Inspector/Code Enforcement Officer/ Deputy Health Officer
